

BEFORE THE
BEGINNING 5

56-0621 THE.LAW.HAVING.A.SHADOW, CHICAGO.IL,THURS

E-23 Think of it, the world as it turns in its cycle, eternity. **Just eternity is like a perfect circle; it has no corners or no end.**

If I started with a perfect circle here tonight going around and around on this desk, it might cut through the desk, through the floor, through the earth, the billions of years and aeons of time to come **it would still be going on, a perfect circle, endless. That's the way that God was in eternity at the beginning.**

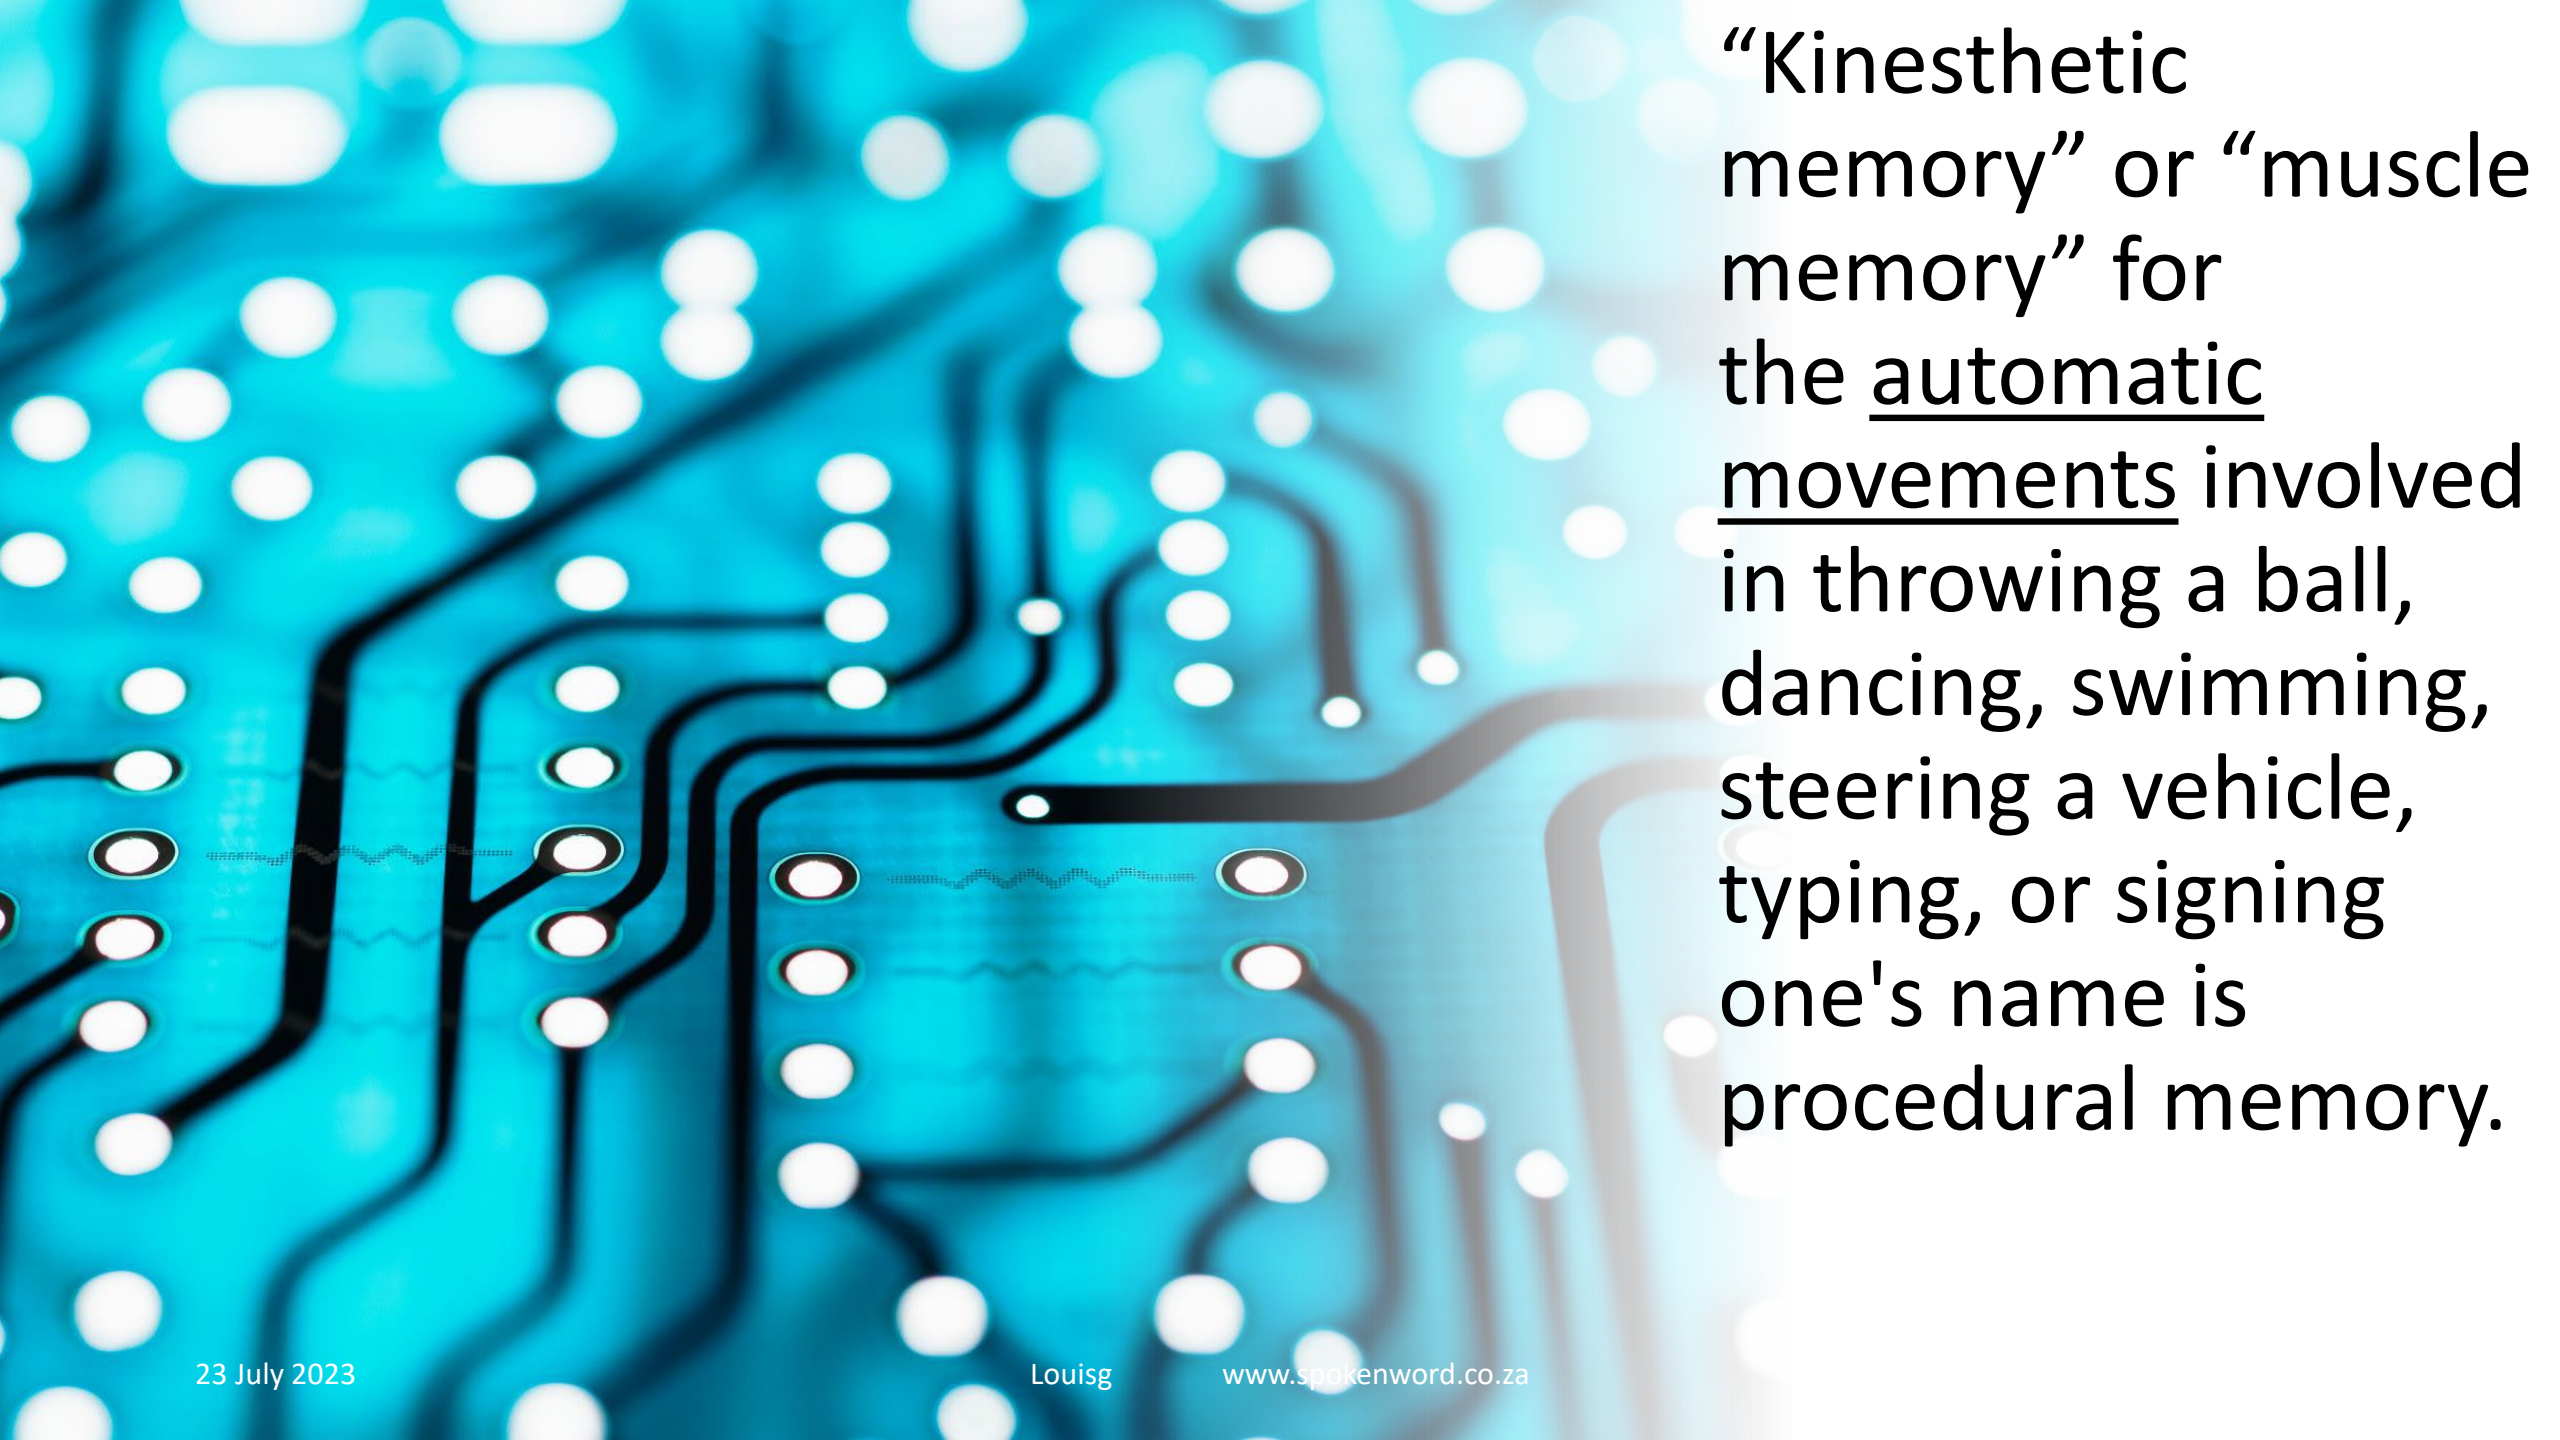

56-0610 PERFECTION, JEFF.IN, SUNDAY

E-11 Now, this great chain of perfection was broken by time-space. Time came because of sin. Let's draw a picture of time. Let's see, a perfect circle, forever, forever, and then all of a once, sin dropped in and put a little, as my wife calls it, a little hickey or a little drop in the chain so it comes down now. Eternity continues on, but it's not in its perfect condition.

There's a little gap comes down, breaks over this way, goes out this a way. God had to do that because Satan caused it. And it dropped down to a space of time for the trying, and the perfecting, and for the ~~purging of the lost, that God by His~~ sovereign grace might someday lift that little hickey or gap back into the perfect circle.

“Kinesthetic memory” or “muscle memory” for the automatic movements involved in throwing a ball, dancing, swimming, steering a vehicle, typing, or signing one's name is procedural memory.

63-0728 CHRIST IS THE MYSTERY OF GOD REVEALED

141 The first thing was, that, God wanted to reveal Himself to the people.142 He couldn't do it as a great Jehovah God Who covered all space, time, and Eternity.

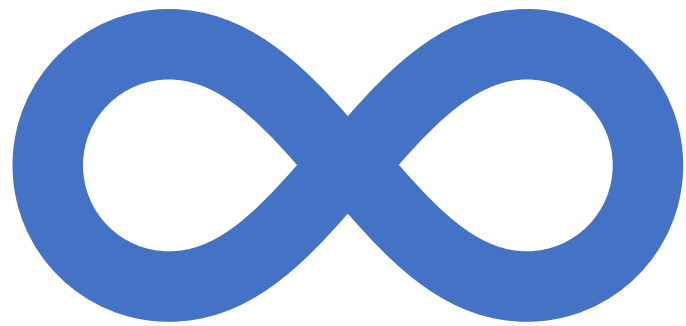

He could not. He is too great to ever be revealed to people, because it would be too mysterious. How could that great Being that never did begin...

that after you went beyond **the cycle of a hundreds of billions and trillions and trillions of years of light space, and on out into the infinite, into the Eternity, and a great Creature that was all that, and still is.**

Infinity is a concept used in mathematics, physics, and philosophy to describe something that has no bound, limit, or endpoint. It represents an unbounded, endless, and immeasurable state or value. The concept of infinity has fascinated thinkers for centuries and plays a significant role in various fields of study.

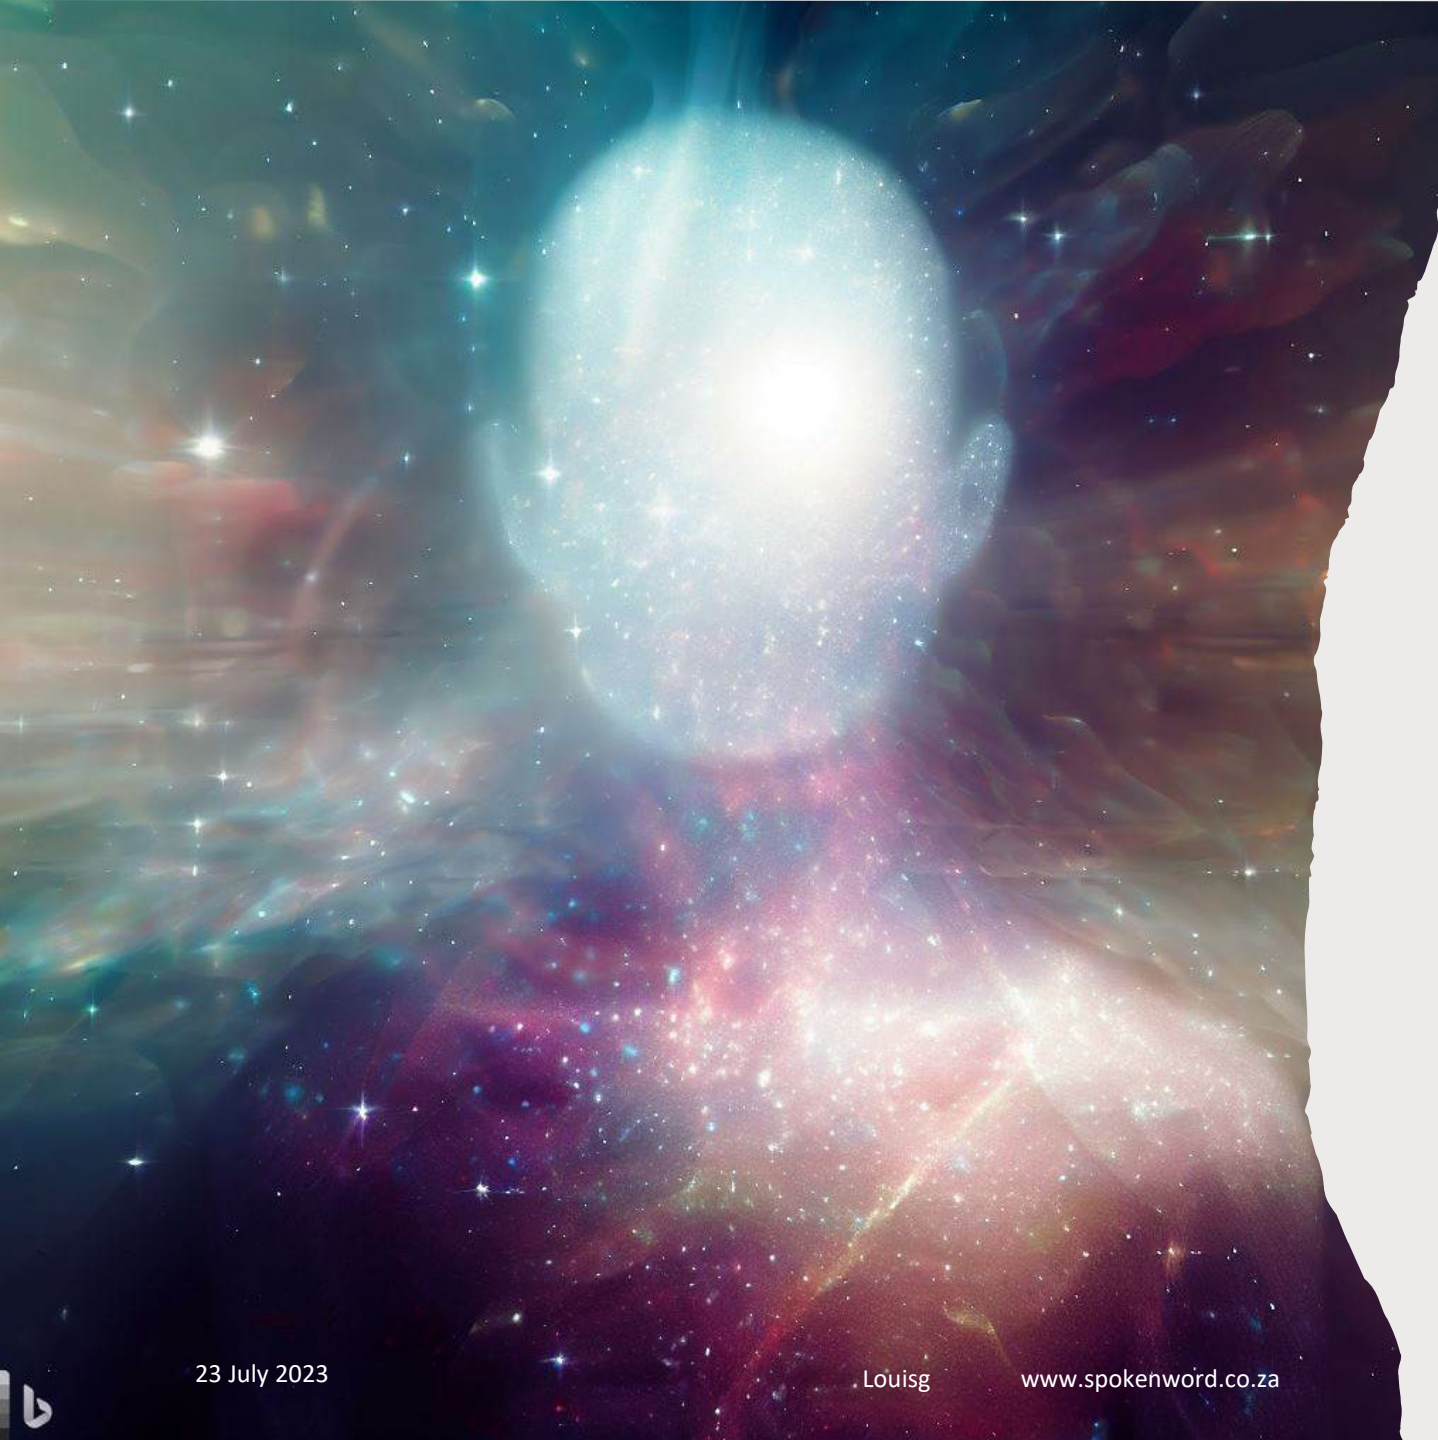

In mathematics, infinity is denoted by the symbol ∞ . It is not a real number in the conventional sense, but rather a theoretical concept used to describe quantities that go on forever without reaching a final value. Infinity can be both **positive (∞) and negative ($-\infty$)**, and mathematicians often work with an extended number system that includes these infinite values.

It refers to the belief that God, as the supreme being or ultimate reality, possesses attributes of infinity, meaning that God is without bounds, limitations, or constraints. Some common attributes associated with an infinite God include:

Omnipotence: God is all-powerful, having unlimited or infinite power over all things in the universe.

Omniscience: God is all-knowing, possessing infinite knowledge about everything, including past, present, and future.

Omnipresence: God is everywhere simultaneously, not bound by time or space, and existing outside of the limitations of the physical world. God lives A place

Eternity: God is eternal, existing without a beginning or an end, transcending time itself. **He is also self sustaining**

Immutability: God is unchanging, constant, and unaffected by external influences.

Infinite Love and Mercy: God's love and compassion are boundless and extend to all creation.

ABSOLUTE ETERNITY

∞

**God Is Infinite In Perfection.
As God Is [The] Absolute Being,
God Is Absolute Infinity.**

NOT ALL INFINITIES ARE EQUAL.

INFINITY VS ABSOLUTE INFINITY:

**What's the difference between Infinity and Absolute
Infinity?**

Infinity is something which is considered never ending but may end IF SOME VARIABLE OR CONDITION CHANGES

ABSOLUTE INFINITY –

The Absolute is unknowable.

The Absolute lies beyond any Angelic and human knowledge and abilities to understand or describe it fully.

Absolute infinity or absolute eternity where the self existing one dwelt

- ABSOLUTE INFINITY
- (\aleph_0) Aleph is the first letter of the Hebrew alphabet and **Aleph-null is the first smallest infinity**. Beyond the Infinity known as \aleph_0 there is \aleph_1 etc.
- The absolute infinite was distinguished by three relations:
 - supreme perfection,
 - completely independent,
 - self-existing alone, self sustaining
 - **being unbounded, indefinite, undefined and formless.**

157 And then when Jesus Christ spoke these Words, they never die. Science claims, in twenty years from now they can pick up the literal Voice. They'll be able to pick up the literal Voice of Jesus. It's still in the earth. Cause, see, it's a sending post, you are. Then there has to be a receiving post. And if you can be the receptacle, see, receiving post, to receive the Word of God, then It's real to you, and It'll live just like it was then. Amen.

- Some creatures are called eternal in the meaning that they will never end, such as spiritual beings.
- And even bodily things are called eternal in the sense that they are not quickly or visibly affected by time.
- Everything that is created from our atom splitting cannot be absolute infinity...
- It all must have a beginning therefore there must be degrees of the eternal or infinity

9 Now, all we are today is the display of His attributes. In God...
First He was not even God, God, we would just call Him "the
Eternal One."

He wasn't God, because the word (English word) God means
"object of worship" and there was nothing to worship Him. So
He was the Eternal One, the main Fountain of all intelligence.

And in this Fountain of all intelligence there was not an atom,
molecule, or nothing, light nowhere, star, moon, nothing else.

64-0205 GOD.IS.HIS.OWN.INTERPRETER

God, what we know as God, the great Spirit that was Eternal (never did begin, never did end), He was there.

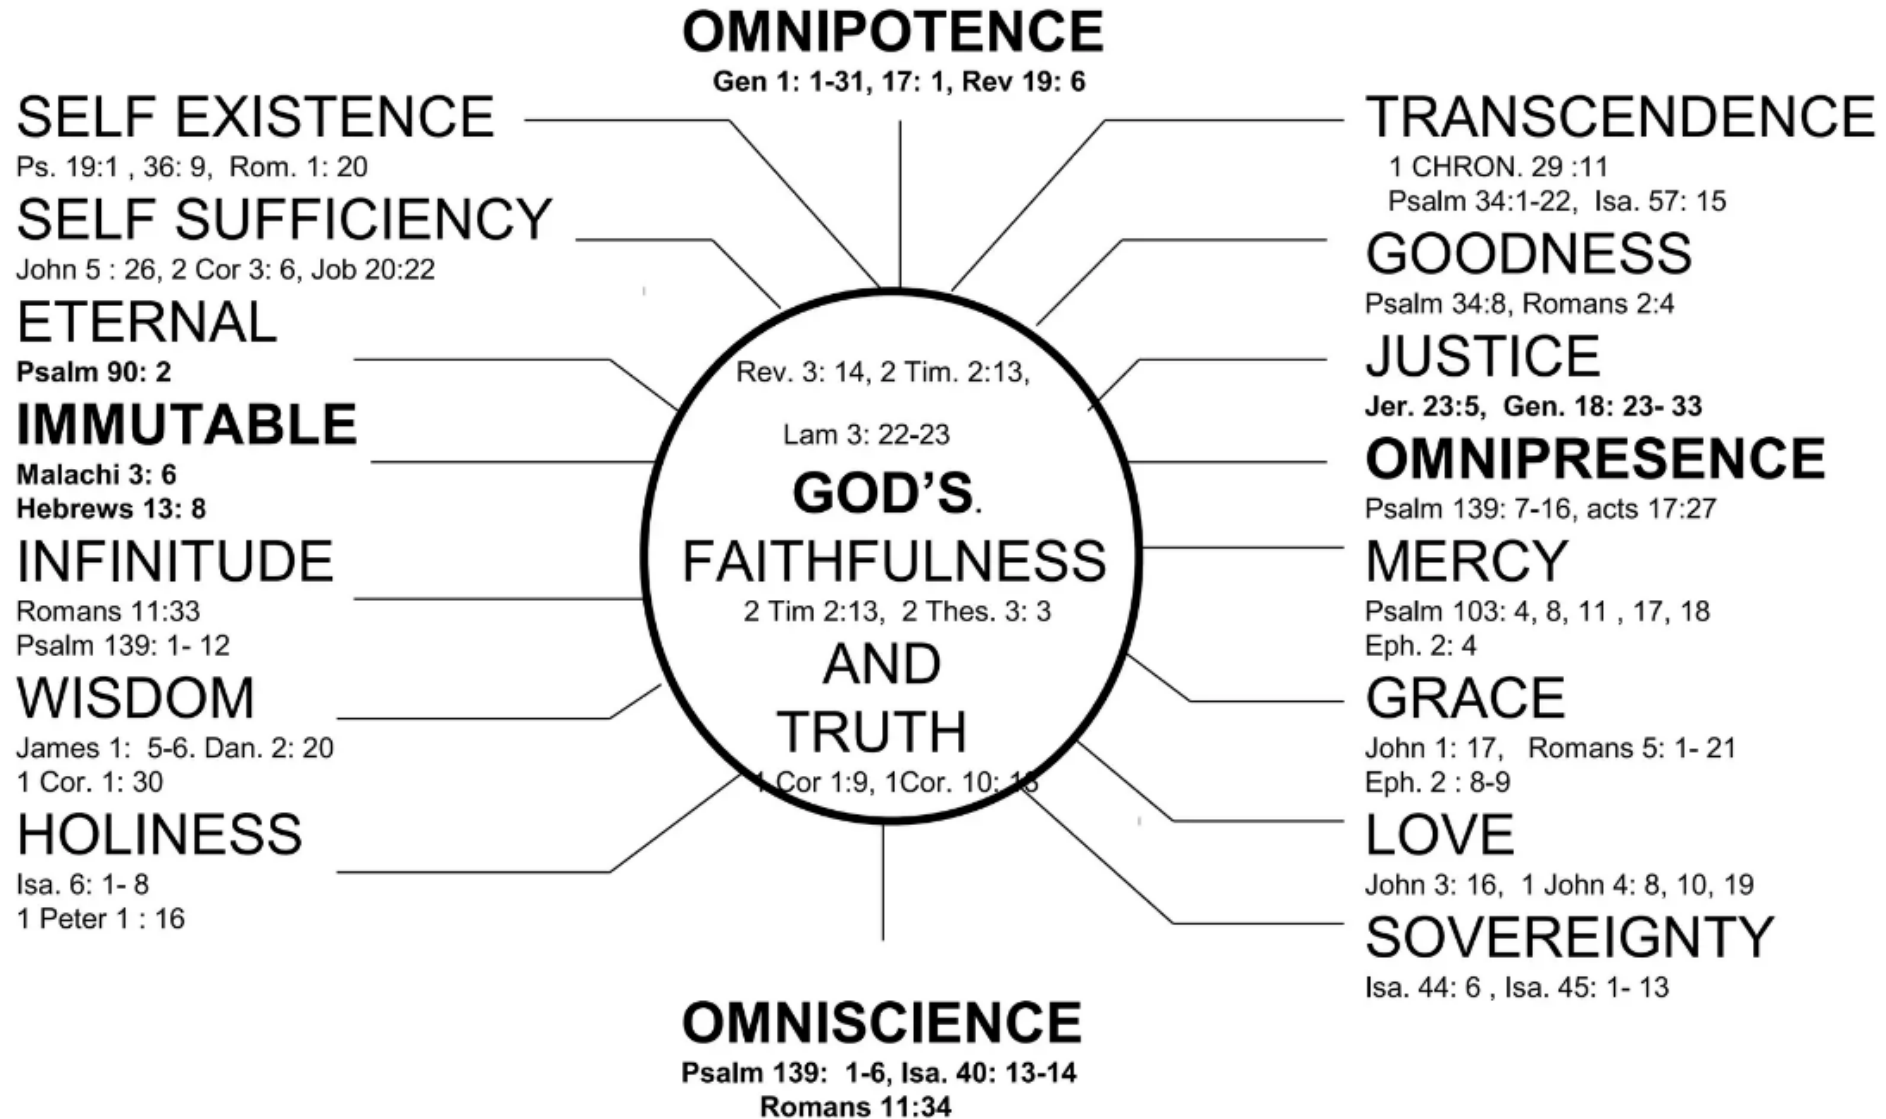

And in Him was attributes: it was attributes to be God, then His attributes to be a Father, attributes to be a Son, attributes to be a Saviour, attributes to be a Healer.

All these attributes was in Him.

And now He... These things that has unfolded since then are just His attributes being made manifest.

ATTRIBUTES OF GOD

- When He begins to leave this eight, He begins to form Himself.
- Notice the word form Himself, and as He begins to form Himself, the traits and qualities now is gathered up together in what we know as a nature.

- So, He had to decide :
 - what His children would be,
 - what they would look like,
 - what form He takes,
 - what they will be,

He's condescending to a point to fellowship with them in such a manner, for them to know Him in a certain way.

Then as that relationship starts, as He goes back up, He'll take us in our understanding of Him, more and more

Notice He doesn't have to create the nature, He just has to put it together. He doesn't have to form a mind, He just has to bring His mind down, because He exists.

And then in that mind, He has the Logos, which is the concept of God, thought and concept, and that thought, and concept is still unexpressed, still in His mind, and then, of course, He is Spirit.

The mind that He has is, there is no mind that is like this mind, because His mind is not made up of any material from the seventh or from the sixth. And then in that mind, He has the Logos, which is the concept of God, thought and concept, and that thought and concept is still unexpressed, still in His mind, and then, of course, He is Spirit.

So, it's just part of the energy, and so that means that His mind is the only one who has the capacity to be omniscient.

Notice He doesn't have to create the nature, He just has to put it together. He doesn't have to form a mind, He just has to bring His mind down, because He exists.

Now, in Him is now a plan, that He is beginning to conceive, and the first part of that plan was to be coming into creation, into time.

He takes on a name and calls Himself the Word.

There is no Theophany, and at this point here, the Word is just an identification of Him, it's not another Being.

- Jehovah Manasseh

El Roi is a name for God that appears in the Bible, specifically in the Old Testament. It is a Hebrew phrase that means "the God who sees" or "the God of seeing."

The name El Roi is mentioned in **Genesis 16:13**, in the story of Hagar, the maidservant of Sarah, Abraham's wife.

In the story, Hagar fled from Sarah's mistreatment and found herself in the wilderness. While there, an angel of the Lord appeared to her and instructed her to return to Sarah. Hagar, in response, called the Lord "El Roi," saying, "You are the God who sees me."

The name El Roi signifies the divine omniscience and awareness of God. It highlights the belief that God sees and knows everything, including the struggles, pain, and circumstances of individuals.

The story of Hagar serves as a reminder that even in difficult situations, God is aware and concerned, providing comfort, guidance, and intervention.

It is important to note that El Roi is just one of the many names and titles used to refer to God in the Bible, emphasizing different aspects of His character and nature

EL ELYON

GOD MOST HIGH

El Elyon is another name for God that appears in the Bible, particularly in the Old Testament. It is a Hebrew phrase that means "God Most High" or "the Most High God."

The name El Elyon is mentioned in several passages, including [Genesis 14:18-20](#) and [Psalm 78:35](#). In [Genesis 14:18-20](#), after Abram defeated a group of kings in battle, he encountered Melchizedek, who was both a king and a priest. Melchizedek blessed Abram, and Abram gave him a tithe (a tenth) of all the spoils he had acquired. Melchizedek referred to God as "El Elyon," meaning "**God Most High**," acknowledging His supreme authority and sovereignty.

- **Psalm 78:35** states, "They remembered that God was their rock, **the Most High God (El Elyon) their redeemer.**" Here, the psalmist acknowledges God as the highest authority, the one who saves and redeems His people.
- The name **El Elyon emphasizes the absolute sovereignty, supremacy, and preeminence of God.** It signifies that God is the highest and most exalted, ruling over all creation. It highlights His divine authority, power, and majesty.

JEHOVAH
NISSI

God is My Banner

יְהוָה נִסִּי

Jehovah Nissi is a name for God that appears in the Bible, specifically in the Old Testament. It is a Hebrew phrase that means "The Lord is my banner" or "The Lord is my victory." The name Jehovah Nissi is mentioned in **Exodus 17:15**.

In **Exodus 17**, the Israelites were engaged in a battle with the Amalekites. Moses stood on top of a hill with the staff of God in his hands, while Joshua led the Israelite army into battle. As long as Moses held up his hands with the staff, the Israelites prevailed, but whenever his hands grew tired and lowered, the Amalekites gained the upper hand.

➤ In this context, **Exodus 17:15** states, "And Moses built an altar and called the name of it, The LORD is my banner" (Jehovah Nissi). The name Jehovah Nissi was given to commemorate the victory that God granted to the Israelites over the Amalekites. It signifies that the Lord is the one who grants victory, protection, and deliverance to His people.

➤ The name Jehovah Nissi highlights the role of God as the banner or standard under which His people rally, finding strength, protection, and triumph. It symbolizes God's presence and His power to overcome adversaries and provide victory in times of conflict or struggle.

Jehovah Jireh: "The Lord Will Provide." This title is used in **Genesis 22:14** when God provides a ram as a substitute for Isaac in the story of Abraham's willingness to sacrifice his son.

Jehovah Rapha: "The Lord Who Heals." It is seen in **Exodus 15:26**, where God reveals Himself as the one who brings healing and health to His people.

Jehovah Shalom: "The Lord Is Peace." Gideon used this name in **Judges 6:24** when he encountered the angel of the Lord and built an altar, recognizing God's presence and peace.

Jehovah Raah: "The Lord Is My Shepherd."
This title is found in Psalm 23:1, where God is depicted as a caring and guiding shepherd who provides for His people.

63-1124E THREE.KINDS.OF.BELIEVERS, JEFF.IN, V-3, N-6, SUN

38 I was speaking to a couple this afternoon, about, you cannot totally annihilate anything. Human beings can't annihilate.

They can tear down, but not annihilate. And someone said, "Well, what about taking and burning a piece of paper, does that annihilate it?"

No, sir. It only breaks the chemicals apart, the heat of the fire. It goes right back to the gases, what it was in the beginning. You cannot annihilate. And if the world stood long enough, that same gases, that and chemicals was in that paper, could come right back and be a piece of paper again. That's exact. You cannot annihilate. Exact.

63-1124E THREE.KINDS.OF.BELIEVERS

39 God, then. If there is a resurrection to everything, back again, and no annihilation, there is a resurrection of the just, yeah, and we are got to come back. That's all there is to it. There is no way at all of doing. **No matter if you're burnt up, if you're drowned, wherever takes place, they cannot annihilate.**

40 Just remember that every part of you was here, when God spoke the world into existence. He put your body here right then. And there is nothing can take it away except God. It's all back into His hands again. See? And He is the One, the One that, the Creator, was the One Who made the promise, so we're sure that there is Life Eternal.

- HE has a plans(THOUGHTS) for HIMSELF.
- The plan incorporates that HE is the Word. HE laid out a plan that HE wanted.

- Then HE had a plan for Angels.
- Then HE had a plan for mankind.

Albert Einstein as part of his theory of relativity. Here's a simple explanation:

"E" stands for energy, which is a measure of how much "work" or "power" something has.

"m" stands for mass, which is a measure of how much "stuff" an object contains.

"c" stands for the speed of light in a vacuum, which is a constant and very high value (approximately **300,000 kilometers per second or 186,000 miles per second**).

The equation states that the energy (E) of an object is equal to its mass (m) multiplied by the speed of light (c) squared. In other words:

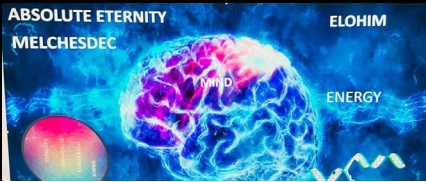

Energy = Mass x (Speed of Light)²

$E=mc^2$

This equation shows that even a small amount of mass can contain an enormous amount of energy. It helps explain the relationship between matter and energy, suggesting that they are interchangeable and that mass can be converted into energy and vice versa.

One of the most famous applications of this equation is in nuclear reactions, where a tiny amount of mass can be converted into a tremendous amount of energy, as demonstrated in nuclear bombs and nuclear power plants.

Einstein's equation revolutionized our understanding of the universe and laid the groundwork for modern physics, leading to breakthroughs in nuclear physics, cosmology, and the development of technologies like nuclear power and nuclear medicine.

49-1225 THE DEITY OF JESUS CHRIST, JEFF., IN, V-20, N-12 SUNDAY

44 When He was back yonder, millions and millions of years ago, when He was no--just like this space here; and then He gathered up into the Logos; and then He came from the Logos down into Christ.

49-1225 THE.DEITY.OF.JESUS.CHRIST

See, it's just God coming down like this to the earth, then going right back into God again. Don't you see what I mean?

Just revolving, coming down from space, from eternity; rolling together, coming down into the Logos, and the Logos down into man, then returning right back again for one purpose, to redeem that man that had fallen.

Now, that's what He came for, to be a Redeemer. And before God could be a Redeemer, He had to be, according to the law, a kinsman Redeemer. He had to be kinfolks to us.

The wave and the particles also contain information.

So, the Word is carrying the energy that is included in the wave.

Wherever this wave can slow down, it will become a particle.

The Word is energy travelling in the form of light, in the form of waves, but it has a particle attribute in there.

If you can slow it down, it will become flesh and it is carrying information.

Before the atom could split, what God had to do was to create the atom.

But if you create an atom that has matter, made up of matter, what stops the matter, what stops it from traveling at the speed of light? Higgs field.

So, what God did, God created a field in the spiritual, not a gravitational field, but called a Higgs field.

And the Higgs field is an invisible field that is made, that operates in the natural and spiritual laws. Higgs field effect natural and spiritual laws.

So, in the Higgs field, there are laws in there that can operate on heavenly bodies, that is bodies that are not created from the atom splitting;

It's created from the atom that's split to make the Pillar of Fire body. Spiritual chart or material

And it is in this Higgs field that things are given mass.

So, the Higgs field and the Higgs boson, it gives particles mass. And if it wasn't for that, everything that's created would travel at the speed of light.

There would be nothing stationary. He had to create an atom to have a place to rest because atom material have to rest on something, it has to have weight, it has to have mass.

If it did not, it will fly off at the speed of light, and nothing will be able to stay together, it will just be travelling.

And therefore, there must be a field that the Pillar of Fire operates in. And according to your body, your makeup of your body, the Pillar of Fire body will operate in the Higgs field differently.

- He has to create a condition or a field, just like He created a dimension here, to have matter, because He cannot reveal Himself even in this invisible form.
- Dimensions were created
- Even in this form, He cannot do it because He needs a material world for manifestation because God is known by what? Characteristics.
- Nothing is there. And therefore, He creates what we call a heavenly Higgs field.

The heavenly Higgs field, we know about the radiation or the channel of communication, that goes forth, it creates everything together,

This being created so that the atom would exist, and when it did, it explodes and creates the material for heaven.
